

Why Shaftesbury mattered

Lord Shaftesbury campaigned with others to protect children through laws.

Work

The 1842 Mines Act banned underground work for women, girls and boys under ten.

Boys aged ten and over could still work underground.

Learning

Shaftesbury supported ragged schools, where volunteer teachers gave poorer children free lessons.

In 1944, long after his death, the charity supporting ragged schools changed its name from the Ragged School Union to the Shaftesbury Society.
