

Use the adjusting strategy. Write the missing numbers.

How we worked out $63 + 29$ together.

Adjusting strategy

First, add: $63 + 30 = 93$

Then, adjust: $93 - 1 = 92$

(1) Work out $148 + 99$.

Adjusting strategy

First, add: $148 + 100 = \square$

Then, adjust: $\square - 1 = \square$

(2) Work out $263 + 49$.

Adjusting strategy

First, add: $263 + 50 = \square$

Then, adjust: $\square - 1 = \square$
