

How to add three numbers

$$7 + 5 + 3 = 15$$

$$7 + 5 + 3$$

Find two numbers that are a **number bond** to 10. They might not be next to each other.

1 Add those two first:
____ + ____ = 10.

$$7 + 3 = 10$$

2 Add the **last number**
3 to 10: 10 + ____ = ____.

$$10 + 5 = 15$$
